ENERGY AND ENVIRONMENTAL CONSIDERATIONS

This action does not appear to significantly affect either the quality of the human environment or conservation of energy resources. Comments on these issues are welcome.

INITIAL REGULATORY FLEXIBILITY ANALYSIS

Under 5 U.S.C. 601 et seq. we are required to analyze the potential impact of proposed rules on small entities.

We preliminarily conclude that, if the Commission were to adopt a rule requiring insurance surcharges to be included in carriers' computation of gross revenues, such a rule would not have a significant economic impact upon a substantial number of small entities inasmuch as it would not affect substantially the costs of doing business or costs involved in paying owner-operators. We are unaware of any regulatory burdens imposed by the proposal or of any alternative to the proposal that would result in a lesser burden on small entities. Comments on this issue are welcome.

Authority: 49 U.S.C. 10101, 10321, 11701, 10762, 10927; 5 U.S.C. 553.

Decided: May 8, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Chairman Gradison and Commissioner Andre dissented with separate expressions.

EX PARTE NO. MC-43

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

****

Able Transit, Inc., MC-156253
Ellis Express, Inc., MC-162662
Natron Express, Inc., MC-189183
Truck One, Inc., MC-156327

Decided: May 7, 1986

Able Transit, Inc., MC-156253, Ellis Express, Inc., MC-162662, Natron Express, Inc., MC-189183, and Truck One, Inc., MC-156327 petition for waiver of Sections 1057.22(a) and 1057.22 (c)(2) and (4) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057), when the exchange of equipment is between themselves.

We Find:

Petitioners are regulated carriers of property performing for-hire transportation in interstate and foreign commerce within the United States under permits and certificates issued by this Commission.

Petitioners are commonly managed and controlled as approved in a series of proceedings, the latest of which is MC-F-16935, United Carriers Corporation--Continuance in Control Exemption--Natron Express, Inc. decided December 20, 1985.

United Carriers Corporation exercises overall direction and control over the petitioners. A common safety program under a single Director of Safety services all petitioners. Each petitioner utilizes a computerized central dispatch system to control the vehicles being used to perform the transportation under its authority. Owner-operators are utilized in the joint operation in which trip leasing between the petitioners is and will be used to improve the efficiency of the total operation. Master lease agreements are and will continue to be used for exchanging equipment between the petitioners.

Despite the easing of Commission regulations under the decision in Ex Parte MC-43 (Sub No. 14), which permits the use of the Master lease and the transmission of equipment receipts by mail, telegraph or similar means of communication, the regulations still impose time and economic burdens upon the petitioners which are viewed as unnecessary since joint control exists. Therefore, to enable an operation that will be as efficient and economical as possible, petitioners seek relief from the indicated leasing regulations when exchanging equipment between themselves.

We further find that the granting of the petition to be consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy, 49 U.S.C. 10101.

It is Ordered:

1. The petition of Able Transit, Inc. MC-156253, Ellis Express, Inc., MC-162662, Natron Express, Inc., MC-189183, and Truck One, Inc., MC-156327, all carriers under control of United Carriers Corporation, for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4) of the Lease and Interchange of Vehicles regulations (49 CFR Part 1057), is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love and Heber P. Hardy. William J. Love did not participate.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

EX PARTE NO. 246 (Sub No. 3)

REGULATIONS GOVERNING FEES FOR SERVICES PERFORMED IN CONNECTION WITH LICENSING AND RELATED SERVICES - 1985 UPDATE - CLARIFICATION

AGENCY: Interstate Commerce Commission

ACTION: Final Rule

SUMMARY: Through these final rules the Commission clarifies its fee schedule to make the filing fee previously adopted for certain exempt rail transactions [See 49 FR 18491 (5-1-84), 49 FR 39548 (10-9-84), and 50 FR 40026 (11-1-85)] applicable to exemptions involving acquisition and operation of certain rail lines under 49 U.S.C. 10901 established in Ex Parte No. 392 (Sub-No. 1), Class Exemption For The Acquisition and Operation of Rail Lines Under 49 U.S.C. 10901, 51 FR 2503, (1-17-86) or exemptions of railroads from securities regulations under 49 U.S.C. 11301 adopted in Ex Parte No. 397, Exemption of Railroads From Securities Regulations Under 49 U.S.C. 11301, 51 FR 4927, (2-10-86).

EFFECTIVE DATE: Upon publication in the Federal Register, on May 21, 1986

FOR FURTHER INFORMATION CONTACT: Kathleen M. King
(202) 275-7428

SUPPLEMENTAL INFORMATION:

We believe that good cause exists under 5 U.S.C. 553(b) to make these fee schedule modifications effective immediately without public notice and comment. The new exemption procedures are already in effect. The fee that we are adopting has been established previously for notice of exemption proceedings through notice and comment in Ex Parte No. 246 (Sub-No. 2) Regulations Governing Fees For Services Performed In Connection with Licensing and Related Services, 49 FR 18491, (5-1-84). We are simply applying the fee to new notice of exemption categories. Immediate implementation of this fee change will remove any uncertainty about the appropriate fee for these new procedures and provide the public with a reduced fee for these procedures.

Accordingly, we find that good cause exists to waive notice and comment in this proceeding and to have these fee modifications become effective immediately because any delay in implementing this reduced fee would be contrary to the public interest.

This action will not have a significant economic impact on a substantial number of small entities because we are merely adopting an existing fee for a similar procedure.

This action will not significantly affect either the quality of the human environment or conservation of energy resources.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

EX PARTE NO. MC-43

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

****

C. J. ROGERS TRANS CO., - MC-39167, FOUR STAR LEASING, INC., - MC-182850,
C. J. R. TRANSFER, INC., - MC-192310

Decided: May 23, 1986

C. J. Rogers Trans Co., MC-39167, Four Star Leasing, Inc., MC-182850, and C. J. R. Transfer, Inc., MC-192310 petition for waiver of Sections 1057.22(a), 1057.22(c), 1057.31(a) and 1057.31(d)(1) of the Lease and Interchange of Vehicles regulations, 49 C.F.R. Part 1057, with respect to equipment leased and interchanged between themselves.

WE FIND:

C. J. Rogers Trans Co., and Four Star Leasing, Inc., are authorized common carriers under joint ownership and control approved by decision in control exemption docket MC-F-16177. C. J. R. Transfer, Inc., (C.J.R.) is currently seeking contract carrier authority in docket MC-192310. A continuing control exemption is also being sought which would, if granted, authorize common control of all three petitioners. Filings were made on April 25, 1986, for the authority and control exemption for C. J. R.

Upon anticipated approval of the C. J. R. authority, petitioners intend to augument equipment between each other by trip leasing and interchanging equipment. Master leases will be used in performing these exchanges of equipment which will result in improved equipment utilization, greater energy savings, and faster response to customer needs.

A common safety program, administered by a single Safety manager, will be applicable to the total operation of the three petitioners. Operational logs and dispatch records maintained by the carriers will identify service assignments and periods of possession of the vehicles being exchanged.

Under the joint ownership, after anticipated control exemption by the Commission, the petitioners are desirous of obtaining the benefits of the sought waiver. Due to the single ownership and control, the equipment identification and receipt requirements of the leasing regulations are viewed as burdensome, irrelevant, and unnecessary when equipment is exchanged between themselves.

Petitioners have indicated that operational plans contemplate the use of the Master Lease option in conducting business between themselves. Since this option is permitted under Section 1057.22(c), a waiver of that total provision would not be consistent with the understood intent of the petition. The petition is, therefore, modified to encompass waiver only of the equipment receipt requirements of Section 1057.22(c)(2) and (4).

We further find that the granting of the petition, modified as to Section 1057.22(c) as discussed above, is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy at 49 U.S.C. 10101.

IT IS ORDERED:

1. The modified petition of C. J. Rogers Trans Co., MC-39167, Four Star Leasing, Inc., MC-182850, and C.J.R. Transfer, Inc., MC-192310 (pending) for waiver of Sections 1057.22(a), 1057.22(c)(2) and (4) as they relate to equipment receipts, 1057.31(a), and 1057.31(d)(1) of the Lease and Interchange of Vehicles, 49 C.F.R. Part 1057, is granted for the equipment leased and interchanged between the petitioners as long as common control exists.

2. During the period of common control, all provisions of Sections 1057.22 and 1057.31, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

SUPPLEMENTARY INFORMATION:

Pacific Inland Tariff Bureau (PITB) has filed an application for approval of its proposed amended collective ratemaking agreement as required by Section 14(e) of the Motor Carrier Act of 1980, Pub. L. 96-296 (1980) (MCA). Since filing its application, PITB has been obligated to observe the requirements of the MCA and the standards set forth in our decision implementing Section 14, found in Ex Parte No. 297 (Sub-No. 5), Motor Carrier Rate Bureaus - Implementation of P. L. 96-296, 364 I.C.C. 464 (1980), and 634 I.C.C. 921 (1981).

We have provisionally approved PITB's agreement as consistent with 49 U.S.C. 10706(b) and Ex Parte No. 297 (Sub-No. 5), supra, subject to certain modifications including the following subject areas: identification and description of member carriers; right of independent action; employee docketing; open meetings; proxy voting; final disposition of cases; single-line rates; general increases and decreases; and zone of rate freedom and released rates. We have also offered comments and imposed requirements concerning the agreement generally. PITB has been directed to file a revised agreement conforming to the imposed conditions within 120 days of service of the decision provisionally approving the agreement.

In light of the complexity of interpretation involved in determining whether the agreement is consistent with the MCA and Ex Parte No. 297 (Sub-No. 5), supra, we request applicant and other interested parties to comment on our interpretation of the controlling statutory and administrative criteria generally, and their application to PITB's agreement in particular.

A copy of any comments filed with the Commission shall also be served on PITB, which shall have 15 days from the expiration of the comment period to reply. These comments will be considered in conjunction with our review of the modifications that PITB must submit to the Commission as a condition to final approval of its agreement.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

This notice and accompanying decision are issued pursuant to 49 U.S.C. §§10321 and 10706 and 5 U.S.C. §553.

Decided: May 23, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Pleadings should refer to No. MC-F-16918
Decided: May 28, 1986

Under 49 U.S.C. 11343(e), and the Commission's regulations in Ex Parte No. 400 (Sub-No. 1), Procedures-- Handling Exemptions Filed By Motor Carriers, 367 I.C.C. 113 (1982); 47 Fed. Reg. 53303 (November 24, 1982), the Interstate Commerce Commission exempts from the requirement of prior review and approval under 49 U.S.C. 11343(a)(2) the purchase by McAllister Towing and Transportation Company, Inc. (MTT), and then by its newly-formed, wholly-owned subsidiary, McAllister Feeder Lines, Inc. (MFL), of all the motor operating rights held by Norfolk, Baltimore and Carolina Line, Inc. (NBC) in No. MC-142795. These rights basically authorize: (1) the common carrier transportation of (a) general commodities (with exceptions), in containers, between Norfolk, VA and Philadelphia, PA and other named points and (b) general commodities (with exceptions), between points in Virginia, Maryland, Pennsylvania, Delaware, New Jersey, and the District of Columbia; and (2) contract carrier transportation of general commodities (with exceptions), between points in the United States, under continuing contract(s) with commercial shippers or receivers of such commodities. NBC also holds water carrier operating authority in No. W-595. In a separate proceeding, Finance Docket No. 30756, McAllister Towing and Transportation Company, Inc., and McAllister Feeder Lines, Inc. -- Purchase-- Norfolk, Baltimore and Carolina Line, Incorporated, filed November 27, 1985, approval for MTT and then MFL to purchase that authority is pending. NBC also holds property broker authority. However, transfer of this authority is not contemplated in this proceeding. MTT controls three water carriers: McAllister Lighterage Line, Inc. (W-81); McAllister Transport Lines, Inc. (W-457); and Bridgeport and Port Jefferson Steamboat Company (W-271). This common control has been approved in Finance Docket Nos. 16079 and 25091.

By the Commission, Division 2, Commissioners Andre, Gradison and Simmons.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

This application, which seeks approval of the change in control of D & C that will occur as a consequence of its acquisition by the purchasers, has been filed under 49 CFR 1181.32(b), which provides that "If there is a change in the control of a corporation ... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest."

However, under the circumstances, their acquisition of control of this motor carrier does not require Commission approval.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

SUPPLEMENTARY INFORMATION:

Willis Brokers, a licensed property broker, holds License No. MC-171943, issued March 22, 1984, authorizing it to engage in operations, in interstate or foreign commerce, as a broker, in arranging for the transportation, by motor vehicle, of general commodities (except household goods), between points in the United States (except Alaska and Hawaii).

Willis Brokers has heretofore been wholly owned by Charles E. Willis. On March 1, 1986, Charles E. Willis transferred a majority interest in the corporation (82.5% of the stock) to Lou Ellen Willis, Charles E. Willis, Jr., Leroy Robert Willis, and Lawrence Willis. As of March 1, 1986, Willis Brokers was owned by these five individuals in these proportions: Charles Sr., 17.5%; Lou Ellen, 17.5%; Charles Jr., 25%; Leroy 25%; and Lawrence, 15%.

This application, which seeks approval of the change in control of Willis Brokers that has taken place as a consequence of the described stock transfers, has been filed under 49 CFR 1181.32(b), which provides that "If there is a change in the control of a corporation ... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest."

Public comment is invited on the question, whether the change in control of Willis Brokers, as above described, is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for the issuance of a decision, in accordance with 49 CFR 1181.32(b).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

MOTOR CARRIERS: NOTICE OF EXEMPTION
FROM 49 U.S.C. 11343

AGENCY: Interstate Commerce Commission

ACTION: Notice of Exemption

SUMMARY: Pursuant to Ex Parte No. 55 (Sub-No. 57), Exemption of Certain Transactions from 49 U.S.C. 11343 (not printed), decided November 21, 1984; 49 F.R. 48314 (December 12, 1984), the Commission has exempted transactions among motor carriers of property and between them and noncarriers otherwise subject to regulation under 49 U.S.C. 11343(a)(1)-(5). The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If no opposing comments are received in the period specified below, the Notices of Exemption published below shall be the final action of the Commission, and parties may consummate the transaction described in the Notice 60 days after the date of publication. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

ADDRESSES: Send comments to:

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission
Washington, D.C. 20423

and (2) Petitioners representative(s), as shown below.

DATES: Comments are due 30 days after publication of the Notice of Exemption.

FOR FURTHER INFORMATION CONTACT:

Warren C. Wood
(202) 275-7977

SUPPLEMENTAL INFORMATION:

Further information concerning the transaction proposed for exemption is contained in the Notice of Exemption. A copy of the Notice of Exemption may be obtained free of charge by contacting petitioner's representative. In the alternative, the Notice of Exemption may be inspected at the offices of the Interstate Commerce Commission during usual business hours.

For transactions involving the merger of two or more carriers or the purchase of motor carrier operating authority, petitioners may obtain revised certificates by notifying the Commission that the transaction has been consummated and by complying with the following administrative requirements set forth in the Code of Federal Regulations: insurance (49 CFR 1043) (liability: ICC Form BMC-91 or BMC-91X and cargo: ICC Form BMC-34), designation of process agents (49 CFR 1044) (ICC Form BOC3), and tariffs (49 CFR 1312).

HUNTER C. SLEDD, JR., ET AL. -- CONTROL EXEMPTION -- T & S TRANSPORTATION, INC., AND WARD TRANSPORTATION, INC.

Petitioners' representative:
William P. Jackson, Jr.
P.O. Box 1240
Arlington, VA 22210

Comments should refer to No. MC-F-17426.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition by Hunter C. Sledd, Jr., Robert C. Sledd, Hunter C. Sledd III, Richard H. Sledd, James Randolph Sledd, and William W. Sledd, noncarrier individuals (petitioners), of control of Ward Transportation, Inc. (Ward) (MC-168844).

The petitioners collectively control Taylor & Sledd, Inc., a noncarrier which, in turn, controls T & S Transportation, Inc. (T & S) (MC-147311). The petitioners also collectively control Canners Warehouse Corporation (Canners), a noncarrier.

Under the involved transaction, Canners acquired all of the common stock of Ward in March 1986. The petitioners, however, failed to seek the necessary approval or exemption by the Commission at that time because, due to the manner in which the indirect relationship between T & S and Ward arose, they were unaware that the provisions of 49 U.S.C. 11343 govern that transaction.

The petitioners have also filed an application for authority under 49 U.S.C. 11349 to operate temporarily Ward's motor carrier properties.

Petitioners' representative:
James C. Hardman
2102 University Avenue
St. Paul, MN 55114

Comments should refer to No. MC-F-17450.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the continuance in control, by Donald G. Oren (a non-carrier individual), of Dart Commercial Enterprises, Inc. (Dart Commercial) (a non-carrier), Dart Transit Company (Dart Transit) (No. MC-114457), and Fleetline, Inc. (Fleetline) (No. MC-171130), upon Dart Commercial's becoming a carrier subject to the Commission's jurisdiction. Dart Commercial is an applicant for operating authority in No. MC-190958.

Oren's common control of Dart Transit and Fleetline was approved in No. MC-F-15498. Petitioners anticipate that, as a part of the restructuring of the companies controlled by Mr. Oren, they will (when the restructuring is otherwise completed) file with the Commission a request to cancel the operating authority now held by Dart Transit.

TAYLOR & SLEDD INDUSTRIES, INC., -- CONTROL --
T & S TRANSPORTATION, INC.

ACTION: Notice of proposed change in the control of a corporation which holds a broker license, under 49 CFR 1181.32(b).

SUMMARY: By application filed under 49 CFR 1181.32(b), Taylor & Sledd Industries, Inc. (Industries) seeks approval for its acquistion of control of T & S Transportation, Inc. (T & S), a licensed property broker.

DATE: Comments are due July 9, 1986.

ADDRESSES: Send comments to:

(1) Office of the Secretary and
Case Control Branch
Interstate Commerce Commission
Washington, DC 20423

(2) Applicants' representative:

Comments should refer to No. MC-FC-82952.

SUPPLEMENTAL INFORMATION:

T & S, a licensed property broker, holds License No. MC-147311 (Sub-No. 12), issued June 26, 1985. T & S is a wholly-owned subsidiary of Taylor & Siedd, Inc. (Taylor & Siedd).

Industries seeks to acquire control of T & S in a two-part transaction. First, industries will acquire control of Taylor & Siedd as a wholly-owned subsidiary: a portion of industries'stock will be exchanged for all of Taylor & Siedd's stock. Second, T & S's stock will be transferred to industries. After both parts of this transaction are concluded, T & S will be a wholly-owned subsidiary of industries.

This application, which seeks approval of the change in control of T & S that will occur as a consequence of its acquisition by industries, has been filed under 49 CFR 1181.32(b), which provides that "If there is a change in the control of a corporation ... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest." Applicant contends that the transfer of control here involved will be consistent with the public interest because it will involve only a minor change in the group of individuals who ultimately control T & S's actions and will leave current officers in place.

Public comment is invited on the question, whether the change in control of T & S, as above described, is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for the issuance of a decision, in accordance with 49 CFR 1181.32(b). 1,2/

1/ Because T & S is also a motor carrier, and because industries is simultaneously acquiring control of a second motor carrier -- Ward Transporation, Inc. (No. MC-168844) -- the transaction underlying the instant proceeding has generated two other proceedints a s well: No. MC-F-17425, Taylor & Siedd Industries, Inc. -- Control Exemption-- T & S Transportation, Inc., and Ward Transportation, Inc.; and No. MC-F-17426, Hunter C. Siedd, Jr., et al. -- Control Exemption -- T & S Transportation, Inc., and Ward Transportation, Inc. The second cited proceeding, No. MC-F-17426, also involves an accompanying temporary authority (TA) application, docketed as No. MC-F-17426 TA. 2/ Attached to some (but not all) of the pleadings filed in this proceeding is a motion for a protective order. This motion, however, apparently relates to the No. MC-F-17426 TA proceeding, not to the instant proceeding. Accordinly, the motion will be considered in the TA proceeding.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

BARRY KEYES--CONTROL--FREIGHT DISTRIBUTION SERVICES, INC.

FREIGHT DISTRIBUTION SERVICES, INC.--PURCHASE--N.D.E. DISTRIBUTION SERVICES, INC.

ACTION: Notice of proposed change in the control of a corporation which holds a broker license, under 49 CFR 1181.32(b).

Notice of proposed transfer of a broker license, under 49 CFR 1181.32(a).

SUMMARY: By application filed April 17, 1986, Barry Keyes (Mr. Keyes) seeks approval for his acquisition of control of Freight Distribution Services, Inc. (New FDSI), a corporation which is to acquire a property broker license formerly held by Freight Distribution Services, Inc. (Old FDSI).

DATE: Comments are due on July 14, 1986.

SUPPLEMENTAL INFORMATION:

Property broker license No. MC-156298, issued January 6, 1982, is now held by Old FDSI, in which Mr. Keyes holds a 25% ownership interest. The transaction involved in this application involves the acquisition of this license by New FDSI, in which Mr. Keyes holds a 100% ownership interest. The substance of this transaction involves a change in the control of a corporation which holds a broker license. The form of this transaction involves a transfer of a broker license. This transaction, viewed in this light, implicates our regulations at 49 CFR 1181.32(b) & (a), respectively.

The transaction will be carried out in several steps: Old FDSI is to be re-named, and will henceforth be known as N.D.E. Distribution Services, Inc.; Mr. Keyes is to be divested of his ownership interest in Old FDSI; New FDSI is to receive all of the assets of Old FDSI, including, in particular, License No. MC-156298; and Mr. Keyes is to have a 100% ownership interest in New FDSI. The successor corporation, New FDSI, will have exactly the same name as its predecessor, Old FDSI, but it will be separately incorporated.

Our regulations at 49 CFR 1181.32(b) provide that "If there is a change in the control of a corporation ... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest." Our regulations at 49 CFR 1181.32(a) provide that "In order to transfer a property broker license, a transferee must file ... proof that the transferee is fit, willing, and able to perform the duties of a broker and that the transfer will not be contrary to the public interest."

Mr. Keyes, who has been Old FDSI's managing owner, contends that the involved brokerage business will remain the same, and will remain under the same management, and that there is no significant potential for public harm.

Public comment is invited on the question, whether the change in control of FDSI, and the transfer of the license from Old FDSI to New FDSI, is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for the issuance of a decision, in accordance with 49 CFR 1181.32.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If no opposing comments are received in the period specified below, the Notices of Exemption published below shall be the final action of the Commission, and parties may consummate the transaction described in the Notice 60 days after the date of publication. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

ADDRESSES: Send comments to:

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission
Washington, D.C. 20423

and (2) Petitioners representative(s), as shown below.

DATES: Comments are due 30 days after publication of the Notice of Exemption.

TAYLOR & SLEDD INDUSTRIES, INC. -- CONTROL EXEMPTION --
T & S TRANSPORTATION, INC., AND WARD TRANSPORTATION, INC.

Petitioner's representative:
William P. Jackson, Jr.
P.O. Box 1240
Arlington, VA 22210

Comments should refer to No. MC-F-17425.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition by Taylor & Sledd Industries, Inc. (Industries), a noncarrier which is in the process of being incorporated, of control of T & S Transportation Inc. (T & S) (MC-147311), a motor carrier and property broker, and Ward Transportation, Inc. (Ward) (MC-168844), a motor carrier.

Under the proposed transaction, Industries will acquire all of the common stock of Taylor & Sledd, Inc. (Taylor & Sledd), a noncarrier which owns all of the common stock of T & S, and Industries will also acquire all of the common stock of Cannons Warehouse Corporation (Cannons), a noncarrier which owns all of the common stock of Ward. Immediately after Industries acquires control of Taylor & Sledd, all of the common stock of T & S will be transferred to Industries, and T & S will thus become a wholly-owned direct subsidiary of Industries, instead of Taylor & Sledd.

A corresponding application has been filed for approval under 49 U.S.C. 11349 of the temporary operation of the motor carrier properties of T & S and Ward. A separate application has also been filed in No. MC-FC-82952 for approval of the change of control of the broker operations of T & S.

WILLIAM H. LEONI AND JOANNE LEONI--CONTINUANCE IN CONTROL EXEMPTION--
C.J.R. TRANSFER, INC.

Petitioners' representative:
Robert D. Schuler, Esq.
100 W. Long Lake Road, Suite 102
Bloomfield Hills, MI 48013

Comments should refer to No. MC-F-17460.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the continuance in control, by William H. Leoni and Joanne Leoni (non-carrier individuals, husband and wife), of C.J. Rogers Trans. Co. (Rogers) (No. MC-39167), Four Star Leasing, Inc. (Four Star) (No. MC-182850), and C.J.R. Transfer, Inc. (C.J.R.) (a non-carrier), upon C.J.R.'s becoming a carrier subject to the Commission's jurisdiction. C.J.R. is an applicant for operating authority in No. MC-192310. The capital stock of each of the three named companies (Rogers, Four Star, and C.J.R.) is entirely owned by William H. Leoni and Joanne Leoni.

Rogers's broadest grant of authority authorizes its operation, as a common carrier, transporting metal products, machinery, transportation equipment, and building materials, between points in Illinois, Indiana, Michigan, New York, Ohio, Pennsylvania, and Wisconsin, on the one hand, and, on the other, points in the United States. Four Star's primary authority authorizes its operation, as a common carrier, transporting general commodities (except classes A and B explosives, household goods, and commodities in bulk), between points in the United States (except Alaska and Hawaii). C.J.R., in its pending application, seeks authority to operate as a contract carrier, transporting general commodities (except classes A and B explosives and household goods), between points in the United States (except Alaska and Hawaii), under continuing contract(s) with commercial shippers and receivers of such commodities. The continuance in control of Rogers and Four Star by the Leonis has been exempted from the prior approval requirements in No. MC-F-16177.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

TEMPORARY AUTHORITY REGION 3 19

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

EX PARTE No. MC-142 (Sub-No. 2)

FREIGHT FORWARDER RESTRICTIONS
(49 CFR PART 1165)

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: In Global Van Lines, Inc. v. ICC, 714 F.2d 1290 (5th Cir. 1983), issued September 19, 1983, the United States Court of Appeals for the Fifth Circuit reversed the decision in this proceeding, which had applied the motor carrier restriction removal procedures (49 CFR Part 1165) to freight forwarders. The court held that the statutory authority the Commission had specifically relied upon did not confer the requisite authority. The Commission here proposes to apply these rules to freight forwarders consistent with and in reliance on its conditioning power at 49 U.S.C. 10923(d)(1). If the proposal is approved, the language of §§1165.1(a) and 1165.12 will be amended to include freight forwarder applicants and to afford interested parties the opportunity to comment on freight forwarder restriction removal applications.

DATES: Comments are due on July 21, 1986.

ADDRESS: Send comments (original and 10 copies) to:
Ex Parte No. MC-142 (Sub-No 2)

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTAL INFORMATION:

Additional information is contained in the Commission's decision. To purchase a copy of the full decision contact: TS Infosystems, Inc., Room 2229, 12th and Constitution Ave., NW, Washington, DC 20423; or call (202) 289-4357 in the DC metropolitan area; or (800) 424-5403 toll-free outside the DC area.

ENVIRONMENTAL AND ENERGY CONSIDERATIONS

Adoption of the proposed rules, amending 49 CFR 1165.1(a) and 1165.12, does not appear to affect significantly the quality of the human environment. We anticipate that these rule changes will improve operating efficiency, promote competition, and foster intermodalism. Comments on these issues are welcome.

REGULATORY FLEXIBILITY ANALYSIS

We conclude preliminarily that the rules proposed here would not have a substantial economic impact upon a significant number of small entities. The effect of the proposed rules will not require the filing of reports or any record-keeping by small entities. The proposed rules are permissive, not mandatory, and would not duplicate, overlap, or conflict with any existing Federal rules.

The only alternative to the adoption of the proposed rules is refusal to apply the restriction removal procedures to freight forwarders. To preclude freight forwarders from using procedures designed to facilitate the removal of restrictions from operating authorities would, in effect, deny the industry access to these cost-saving procedures.

We invite comments on the foregoing issues.

Ex Parte No. MC-178 (Sub-No. 1)

PETITION FOR INVESTIGATION OF INSURANCE SURCHARGES

AGENCY: Interstate Commerce Commission.

ACTION: Extension of time to file comments to notice of proposed rulemaking.

SUMMARY: This proceeding is meant to determine whether carriers should be prohibited from excluding revenues earned under insurance-related surcharges from computation of gross revenues. We instituted this rulemaking and requested that comments be filed by June 18, 1986, in a notice published on May 19, 1986 (51 FR 18346). For good cause shown, we will grant a 45-day extension of time to file comments as requested by the American Trucking Associations, Inc. This will permit their members time to discuss and determine the practical effects of the proposed rule, to conduct whatever studies are necessary, and to submit complete comments. The extension will also permit the Owner-Operators Independent Drivers Association of America, Inc. (who requested a 30-day extension) to contact as many of its owner-operator members as possible so that they can submit their individual views.

DATES: Comments must be filed by August 4, 1986.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request, for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

WILL BE PUBLISHED IN THE FEDERAL REGISTER ON JUNE 30, 1986

49 CFR Part 1052
Ex Parte No. MC-42

HANDLING OF C.O.D. SHIPMENTS

AGENCY: Interstate Commerce Commission.

ACTION: Supplemental request for comments to notice of proposed rulemaking.

SUMMARY: This proceeding was instituted by notice of proposed rulemaking (NPR) published March 30, 1981 (46 FR 19271). The NPR proposed to amend the Commission's regulations governing the collection and remittance of funds for cash-on-delivery (c.o.d.) shipments (49 CFR 1052.3) and the recordkeeping requirements for carriers handling c.o.d. shipments (49 CFR 1052.4). Comments were received, but no action was taken because of the Commission's anticipated review of its credit regulations. However, the revised credit regulations (49 CFR Part 1320) did not address the c.o.d. regulations. The Commission now proposes to revise §1052.3 to allow each carrier to publish its own nondiscriminatory c.o.d. tariff provisions and to repeal the recordkeeping requirements of section 1052.4.

DATES: Comments are due by July 31, 1986.

ADDRESSES: The original and, if possible, 10 copies of the comments referring to Ex Parte No. MC-42 should be sent to:

Case Control Branch
Office of the Secretary
Interstate Commerce Commission
Washington, DC 20423

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To purchase a copy of the decision, write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call (202) 289-4357 in the DC Metropolitan area or (800) 424-5403, toll-free, outside the DC area.

This action will not significantly affect either the quality the human environment or conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

The Commission certifies that adoption of the proposed modification will not have a significant economic impact on a substantial number of small entities because the proposed amendments would not be mandatory and would allow more flexible, individualized procedures.

Decided: June 23, 1986

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

APPENDIX

PROPOSED REVISION TO THE CODE OF FEDERAL REGULATIONS 49 CFR 1052

We propose to amend 49 CFR 1052 as follows:

1. The authority citation for 49 CFR Part 1052 would be revised to read as follows:

Authority: 49 U.S.C. 304, 311, 315, 316, 319, 320; 49 U.S.C. 10101, 10321, 10922, 10762, 11101, and 5 U.S.C. 553.

2. The heading and text of §1052.3 would be revised to read as follows:

§1052.3 Collection and remittance.

Every common carrier of property subject to the Interstate Commerce Act, except as otherwise provided in §1052.1, which provides any c.o.d. service must publish and maintain a tariff or tariffs which set forth nondiscriminatory rules governing the collection and remittance of c.o.d. funds.

3. Section 1052.4 would be removed.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

SUMMARY: Pursuant to Ex Parte No. 55 (Sub-No. 57), Exemption of Certain Transactions from 49 U.S.C. 11343 (not printed), decided November 21, 1984; 49 F.R. 48314 (December 12, 1984), the Commission has exempted transactions among motor carriers of property and between them and noncarriers otherwise subject to regulation under 49 U.S.C. 11343(a)(1)-(5). The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If no opposing comments are received in the period specified below, the Notices of Exemption published below shall be the final action of the Commission, and parties may consummate the transaction described in the Notice 60 days after the date of publication. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

ADDRESSES: Send comments to:

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission
Washington, D.C. 20423

and (2) Petitioners representative(s), as shown below.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition by Stony's Trucking Co. (Stony's) (MC-107726), of the operating rights of Eagle Lines Incorporated (Eagle) in permit No. MC-172839 and certificate No. MC-172839 (Sub-No. 1). Eagle's permit authorizes the transportation of (1) metal products, between points in the United States (except Alaska and Hawaii), under continuing contract(s) with manufacturers or distributors of metal products; (2) construction materials, equipment, and supplies, between points in the United States (except Alaska and Hawaii), under continuing contract(s) with construction contractors and manufacturers or distributors of construction materials, equipment, and supplies; (3) machinery, between points in the United States (except Alaska and Hawaii), under continuing contract(s) with manufacturers, sellers, or distributors of machinery; and (4) lumber and wood products, between points in the United States (except Alaska and Hawaii), under continuing contract(s) with manufacturers or distributors of lumber and wood products. Eagle's certificate authorizes the transportation of (1) food and other edible products and byproducts intended for human consumption (except alcoholic beverages and drugs), agricultural limestone and fertilizers, and other soil conditioners, by the owner of the motor vehicle, in such vehicle; (2) general commodities (except used household goods, hazardous or secret materials and sensitive weapons and munitions), for or on behalf of the United States Government; and (3) general commodities (except classes A and B explosives and household goods), between points in the United States (except Alaska and Hawaii).

An application authorizing the temporary lease of the relevant operating rights was approved by the Motor Carrier Board.

(MC-146148) which controls all of the stock of Eagle. The Commission previously has exempted the resulting common control relationships involved in this structure in Nos. MC-F-16025 and MC-F-16789.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:
